## Why That Lame Back?

Morning lameness, sharp twinges when bending over, or a dull, all-day backache; each is cause enough to suspect kidney trouble. Get after the cause. Help the kidneys. We Americans go it too hard. We overdo, overeat and neglect our sleep and exercise, and so we are fast becoming a nation of kidney sufferers. 72% more deaths from kidney diseases than in 1890, is the story told by the 1910 census.

If annoyed with a bad back, nervous troubles and irregular kidney or bladder action, modify the bad habits, and use Doan's Kidney Pills. Thousands recommend them.

## A Topeka Case

Andrew Losh, retired carpenter, 632 Lake St., says: "My back was so lame and painful that I couldn't get about. I didn't sleep well and got up in the morning feeling miserable. The kidney secretions were highly colored. Doan's Kidney Pills, procured from Rowley's Drug Store, helped me from the first. Since then I have been free from all the former troubles."

a man's jokes, he should not imagine he is witty; a girl of sixteen laughs because she is sixteen.  
When you see a girl butterfly on parade, that little black ant accompanying her is her mother.  
The word "girl" occurs in the Bible but twice, and we always imagined that heaven was full of them!  
Between the years of sixteen and twenty, she knows more about life, fudge and friendship than any one else in the world.  
There is no calm medium in a sixteen-year-old girl's vocabulary; if you are not perfectly grand you are in-sufferably odious.

## IN NORTH TOPEKA

Work to Start on New Santa Fe Junction Depot.

Material Ordered Tuesday; Ready in 60 Days.

Within the next thirty days active work will be commenced on the new Santa Fe depot, which will replace the structure burned last winter. The contract for the material was let Tuesday afternoon.

Since the fire, which destroyed the old junction depot, a land-mark of the early days of North Topeka, the Santa Fe has been using a boxcar as a freight office and a discarded passenger coach for passengers.

The new structure will be one that any town would be proud of. The building will be composed of wood and cement-stucco with large cement pillars. A brick platform will be laid around it.

The size will be twenty-four feet wide by fifty-four feet long. A waiting room, sixteen by twenty-four, will occupy the north end and the freight room, sixteen by twenty-four, will be located at the south end of the building. Between the waiting room and the freight department the office, twenty by twenty-four, will be located.

The approximate cost will be \$3,000, and it is planned by the engineers in charge to have the building ready for occupancy by the middle of December.

During the past spring and summer some inconvenience has been caused the merchants who received freight on the Santa Fe. The railroad did not want to be responsible for valuables left in the make-shift affair at night.

The location of the new depot will be just south of Gordon street, east of the Santa Fe tracks.

**Youngsters Tamper With Lock.**  
The front door of the building occupied by the Topeka Creamery company, 201 North Kansas, was tampered with Tuesday night. This morning when C. C. Hester, manager of the company, went to the office he found the lock out of order and partially off the door.

The work is thought to be the prank of some youngsters who hang around this corner during the evening.

**Postoffice Closed Today.**  
The North side postoffice closed today at 10 o'clock to allow the employees to attend the fair. Most of the business houses including the North side closed Tuesday afternoon. The North Topeka bank will close again Thursday afternoon.
